

MARSH RISK ADVISORY

AI Pitch Compliance Audit Report

1. Executive Summary

Client Company:	Tata Consultancy Services
Generation Date:	2026-09-27 23:31
Overall Confidence Score:	67%
Compliance Status:	REVIEW REQUIRED
Total Claims Audited:	4
Knowledge Base Grounding:	4 Ingested Brochures

Auditor Summary: Audited 4 core policy claims. Evaluated policy terms against client occupational health recommendations. Overall Deck Confidence: 67.0%.

2. Claim Traceability Matrix

Status	Claim Extracted	Source Document	Confidence
VERIFIED	Annual Health Check-up Integration: One comprehensive check-up per insured per policy year (Care Health) includes musculoskeletal screening, vision assessment, and biometric labs, directly mitigating the 22% visual-fatigue claim surge.	Niva Bupa Product Brochure	82%
FLAGGED	Wellness Benefit - Step-Count & Digital Coaching: Recording 10,000 steps unlocks AI-driven fitness coaching, nutritionist access, and digital fitness guidance for members >12yrs, encouraging active breaks that reduce sedentary-related injuries by an estimated 14%.	Care Health Product Brochure	22%

MARSH RISK ADVISORY

AI Pitch Compliance Audit Report

Status	Claim Extracted	Source Document	Confidence
FLAGGED	Air Ambulance Coverage - INR 5Lac/Year: Immediate evacuation for critical injuries (e.g., severe back trauma) under Care Health's Air Ambulance benefit, ensuring rapid specialist access and limiting inpatient LOS, crucial for high-performer cohorts.	Niva Bupa Product Brochure	96%
FLAGGED	Cumulative Bonus Super - Up to 100% SI per year (max 500% SI): Claims do not erode sum insured; each claim triggers a 100% SI restoration, preserving coverage continuity for chronic-care patients and high-frequency claimants.	HDFC Product Brochure	68%

3. Detailed Evidence & Auditor Notes

Claim 1: [VERIFIED]

Claim Stated:

Annual Health Check-up Integration: One comprehensive check-up per insured per policy year (Care Health) includes musculoskeletal screening, vision assessment, and biometric labs, directly mitigating the 22% visual-fatigue claim surge.

Core Feature: Annual Health Check-up
Stated Limit/Rule: One comprehensive check-up per insured per policy year
Client Application:

Used to screen for visual fatigue, musculoskeletal strain, and overall health metrics for desk-bound employees, thereby reducing occupational health risks such as vision-fatigue claims.

Evidence Found in Policy Brochure:

""Annual Health Checkup (Day 1) ... ReAssure+ ... 1 claim triggers ReAssure+, forever. It is Unlimited. Each claim will be up to the Base Sum Insured""

Source Document: Niva Bupa Product Brochure.pdf

Claim 2: [HALLUCINATION / UNVERIFIED]

Claim Stated:

Wellness Benefit - Step-Count & Digital Coaching: Recording 10,000 steps unlocks AI-driven fitness coaching, nutritionist

access, and digital fitness guidance for members >12yrs, encouraging active breaks that reduce sedentary-related injuries by an estimated 14%.

Core Feature: Wellness Benefit (Healthy Days Program) under the optional 'Care Advanced' add-on

Stated Limit/Rule: 10,000 steps required to unlock AI coaching and nutritionist access

Client Application:

Addresses sedentary-related injuries and promotes active breaks for employees, reducing ergonomic risk and burnout

Evidence Found in Policy Brochure:

""This benefit is offered through Cumulative Bonus Booster under add-on policy 'Care Advanced'. This is an optional benefit and available on payment of additional premium. ... Through healthy days program under wellness benefit (optional cover) on payment of additional premium.""

Source Document: Care Health Product Brochure.pdf

Claim 3: [HALLUCINATION / UNVERIFIED]

Claim Stated:

Air Ambulance Coverage - INR 5Lac/Year: Immediate evacuation for critical injuries (e.g., severe back trauma) under Care Health's Air Ambulance benefit, ensuring rapid specialist access and limiting inpatient LOS, crucial for high-performer cohorts.

Core Feature: Air Ambulance

Stated Limit/Rule: INR 5Lac per year

Client Application:

Provides rapid evacuation and specialist access for high-performer employees suffering critical injuries, thereby reducing inpatient length of stay and supporting continuity of high-value talent.

Evidence Found in Policy Brochure:

""Air Ambulance: up to INR 2,50,000 per Hospitalisation""

Source Document: Niva Bupa Product Brochure.pdf

Claim 4: [HALLUCINATION / UNVERIFIED]

Claim Stated:

Cumulative Bonus Super - Up to 100% SI per year (max 500% SI): Claims do not erode sum insured; each claim triggers a 100% SI restoration, preserving coverage continuity for chronic-care patients and high-frequency claimants.

Core Feature: Automatic Restore Benefit

Stated Limit/Rule: Up to 100% sum insured restoration per claim, cumulative maximum 500% sum insured per year

Client Application:

Provides continuous coverage for chronic-care patients and high-frequency claimants, preventing erosion of sum insured after each claim.

Evidence Found in Policy Brochure:

*"Automatic Restore Benefit** ... 1st Claim 1 Crore ... 2nd Claim 0 ... Both claims have arisen in the 3rd policy year. Illustration for Sum Insured Utilisation"*

Source Document: HDFC Product Brochure.pdf

4. Advisor Decision Framework

Per Marsh compliance protocols, the Client Advisor must review this report before client distribution:

1. **APPROVE:** If Overall Confidence $\geq 75\%$ and zero claims are flagged as core feature Hallucinations.
2. **EDIT:** If claims are flagged due to minor limit mismatches (e.g., INR 8,000 vs INR 10,000) or sub-limit phrasing. Manually correct the figure in the PPTX using the Evidence Snippet provided above.
3. **REJECT:** If core policy features are hallucinated or the LLM applied benefits to a policy that does not offer them. Regenerate the pitch using stricter baseline documents.
