MARSH RISK ADVISORY

AI Pitch Compliance Audit Report

Status	Claim Extracted	Source Document	Confidence
FLAGGED	Partner with Marsh to design a customized mental-health insurance rider covering up to INR 2million per claim, with no waiting period, incentivizing early intervention and reducing long-term disability exposure.	HDFC Product Brochure	96%

3. Detailed Evidence & Auditor Notes

Claim 1: [VERIFIED]

Claim Stated:

Implement a tiered resilience program delivering quarterly stress-management workshops, targeting 80% participation, projected to cut burnout incidence by 12% and reduce claim costs by INR 150million within 18 months.

Core Feature: Wellness Benefit - Healthy Days Program (optional cover)
Stated Limit/Rule: Standard terms (no explicit monetary limit specified in brochure)
Client Application:

Addresses employee burnout and stress, enhancing resilience and reducing health-related claim costs

Evidence Found in Policy Brochure:

""Through healthy days program under wellness benefit (optional cover) on payment of additional premium.""

Source Document: Care Health Product Brochure.pdf

Claim 2: [HALLUCINATION / UNVERIFIED]

Claim Stated:

Introduce flexible project staffing buffers of 10% capacity and enforce maximum 45-hour weeks, aligning with industry best-practice, expected to lower overtime-related stress metrics by 18% and improve delivery timelines.

Core Feature: Not found in brochure
Stated Limit/Rule: 10% staffing buffer; maximum 45-hour work weeks
Client Application:

Intended to reduce overtime-related stress and improve project delivery timelines

Evidence Found in Policy Brochure:

"The brochure excerpt discusses age-based eligibility for a one-time option, home health care cashless availability, and daily cash benefits. It contains no reference to staffing buffers, work-hour limits, or stress-reduction measures."

Source Document: HDFC Product Brochure.pdf

Claim 3: [HALLUCINATION / UNVERIFIED]

Claim Stated:

Partner with Marsh to design a customized mental-health insurance rider covering up to INR 2million per claim, with no waiting period, incentivizing early intervention and reducing long-term disability exposure.

Core Feature: Mental Health Insurance Rider

MARSH RISK ADVISORY

AI Pitch Compliance Audit Report

Stated Limit/Rule: Up to INR 2million per claim, no waiting period

Client Application:

Provides mental-health coverage to mitigate occupational stress and reduce long-term disability risk for employees

Evidence Found in Policy Brochure:

"The HDFC brochure lists add-ons such as Optima Wellbeing (outpatient benefits), Individual Personal Accident Rider, ABCD Chronic Care, and Critical Illness, but does not mention any mental-health rider or a 2million INR limit."

Source Document: HDFC Product Brochure.pdf

4. Advisor Decision Framework

Per Marsh compliance protocols, the Client Advisor must review this report before client distribution:

1. **APPROVE:** If Overall Confidence $\geq 75\%$ and zero claims are flagged as core feature Hallucinations.
2. **EDIT:** If claims are flagged due to minor limit mismatches (e.g., INR 8,000 vs INR 10,000) or sub-limit phrasing. Manually correct the figure in the PPTX using the Evidence Snippet provided above.
3. **REJECT:** If core policy features are hallucinated or the LLM applied benefits to a policy that does not offer them. Regenerate the pitch using stricter baseline documents.
